

# TTV 1645

## Sportcam

### The production camera

- Power of a large magnification zoom lens.
- Very high sensitivity as a result of new 3 - CCD design.
- Pin-sharp picture quality, even in fast action shots.
- One-piece camera or centralized system.
- Full bandwidth R.G.B. triax system (for operation up to 1500 m from the base station).
- Large 7" (17cm) high brightness fully adjustable viewfinder
- Highly modular construction.
- All functions remotely controllable by centralized or individual panels.
