

**Marconi provides a complete range of sound and television broadcasting equipment. Complete systems surveyed, planned, installed, and maintained in all parts of the world.**

# **Marconi semi-automatic master switching system**

## **B3720**

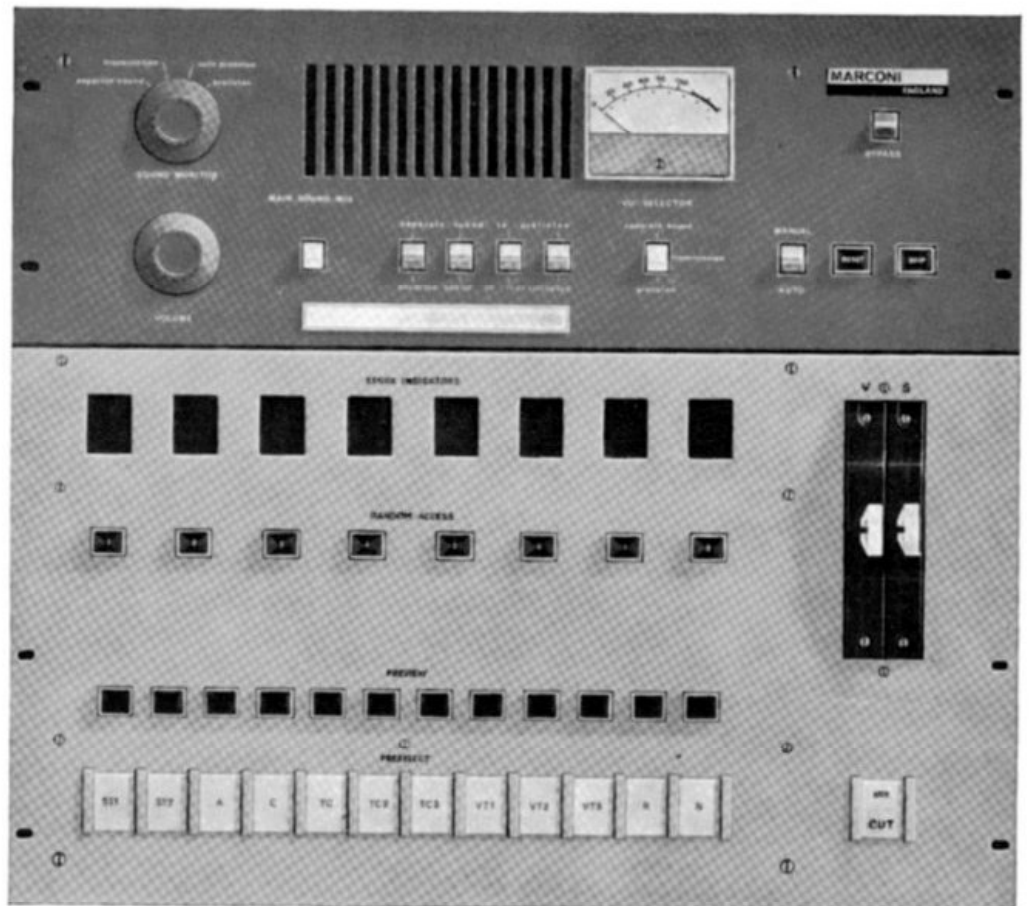

The B 3720 Switching Equipment is a master control switcher with a memory store to control programme sources in correct sequence, allowing the operator to concentrate on the correct timing of the programme change, the next source being selected automatically.

**Vision and sound switching for 12 inputs**

**Automatic sequencing of up to 8 events**

**Full colour standards**

**Fully transistorized**
